

“LET THE MUSIC PLAY”

We've been living life apart
We've felt hopeless and depressed
With a song deep in our heart
That had no place to be expressed

But a brand new day is dawning
As at last we find our way
On this bright and glorious morning
It is finally time to say

Let the music play
Let our voices soar
Starting now, today
And forevermore

We've come through the night
We have found our way
Now the time is right
Let the music play

With the voices we've been hearing
Saying Help is on the Way
And so many of us fearing
We would never see that day

We're beginning to break through now
No more need to stay inside
As these promises come true now
And our hearts can open wide

Let the music play
Let our voices soar

Starting now, today
And forevermore

We've come through the night
We have found our way
Now the time is right
Let the music play

Let it ring throughout the nations
Let our stages burst with song
Let us fill our empty theaters
And put music, love and life and laughter
Back where they belong

Let the music play
Let our voices soar
Starting now, today
And forevermore

We've come through the night
We have found our way
Now the time is right
Let the music play

Let the music play
Let the music play
